

I am writing in support of K-LOVE radio network. K-LOVE services our local community with a positive and encouraging message. The effect on our community is nothing but positive. It is the only station that we listen to. Many of the other stations are not worth listening to. They play inappropriate music and the language is not what I want my children listening to. You never have to worry about K-LOVE - it always has an encouraging impact on my family plus the community all across America.
